The object of the Trustees is to render the Company a public benefit, by dividing its advantages among a large number of individuals.

They have bought and paid for a celebrated colliery in Schenckill County, Penn., with the Engines, Machinery, Breakers, Shops, Miners' Humpes, Tools, Cars, Rail Tracks, Saw Mills and other personal property, and have denominated it the STEPTOE SILVER MINING COMPANY.

Shareholders in the Company will be entitled to one ton of coal annually at actual cost, for each share of stock held by them.

The surplus coal produced from the mines, after supplying the stockholders, will be sold at market rates and the profits divided among the Stockholders in semi-annual Cash Dividends. Those who do not desire to receive the coal they may be entitled to, can upon application to the Company, have their coal sold for their particular benefit and the profits thereon paid to them in addition to the regular semi-annual dividends.

The coal will be delivered in the cities of New York, Brooklyn, Jersey City, Albany, Troy and other places on the lines of rivers and railroads, at the actual cost of mining, transportation and delivery.

LARGE CONSUMERS SUPPLIED BY THE CARGO.

Coal, at the present price, is one of the most expensive of necessities, and the mutual system offers the only protection against the several profits charged between the mine and the consumer.

Let consumers unite and own their own Colliery. To carry this idea into practical operation, the PEOPLE'S MUTUAL COAL COMPANY invites your subscriptions.

The Subscription Books are now open at the following places, viz.: At the Company's Office (new Marble Buildings), No. 157 Broadway, first floor; WELLINGTON & CO., No. 74 Broadway; S. & W.
